

50000BWHS BorgWarner Fluid Gen II-V

Document version: 19 Apr 2025

Description

This special fluid is developed for BorgWarner wet clutch applications and is suitable for use in wet clutches with sinter and organic plates. The oil provides excellent friction characteristics and prevents stick-slip. The extremely good shear stability properties ensures optimum lubrication during the life time of the clutch. This fluid is recommended for BorgWarner Haldex clutches Generation II-V used in Land Rover, Volvo and Volkswagen/Audi group.
